Virtual: https://aka.ms/AAjp7un

ABOUT THE EVENT

GitHub invites you to attend its parallel event for the 67th session of the Commission on the Status of Women (CSW 67). Five esteemed panelists - Fereshteh Forough, Tarunima Prabhakar, Ifunanya Ikemma, Hera Hussain, and Stephanie Coker - will speak about their work in Afghanistan, India, Nigeria, the UK, and the US, and their technology solutions for three challenges that people who identify as women and girls disproportionately face globally: access to technology skills, online harassment and bullying, and gender-based violence. Software developers and other technologists will learn how they can leverage their skills to contribute. Shelley McKinley will deliver the keynote address on how artificial intelligence (AI) tools and models can advance women's equity. The event will be hosted by Mala Kumar.
